# New patterns bring a fresh look to your community

## Fitted vs. Throw Style

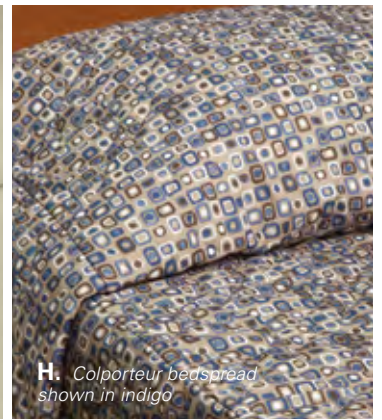

- Throw bedspreads conceal hardware underneath healthcare beds for a more residential look and feel
- Fitted bedspreads are best for low beds, as they keep the fabric off the floor and help eliminate trip hazards

## Quilted vs. Non-Quilted

- Quilted bedspreads feature up to a 6 oz. fill to help keep chill-prone residents warm and comfortable
- Non-quilted bedspreads are lighter weight for warmer climates and add a modern style to your resident rooms
