# USING DIRECT SUPPLY MICROFIBER PADS

# WASHING DIRECT SUPPLY MICROFIBER PADS

Flip pads into the mop bucket and remove the plastic bag.

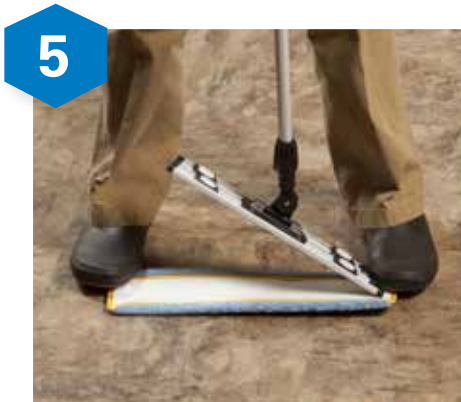

Fill mop bucket with 6 quarts of cleaning solution.

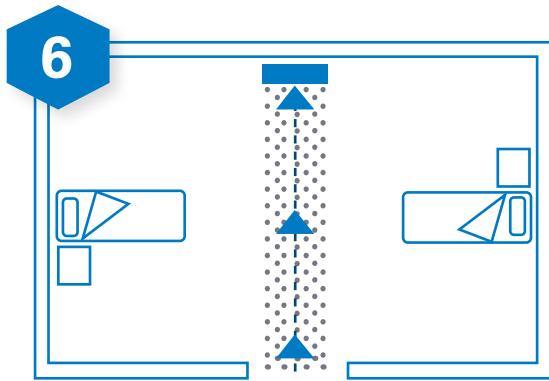

Press mop frame against wet mop to fasten hook-and-loop system.

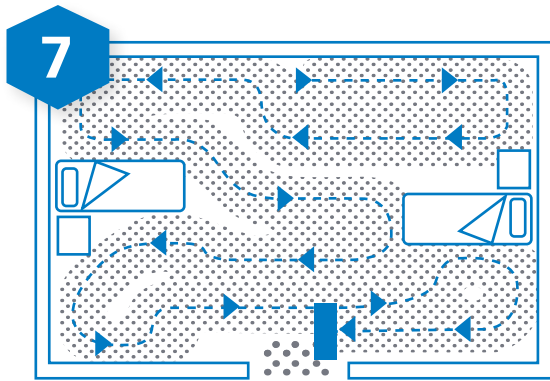

Mop floor using the "Figure 8" motion illustrated in the diagrams below.

Step on sides of mop and pull to release the pad. Place in soiled laundry bag.

Start at doorway, pull mop across to opposite wall, leaving a trail of cleaning solution.

Mop using a "Figure 8" motion, keeping the same edge of the mop leading along the trail.

## Sort

Lint has a negative effect on microfiber. Microfiber should be processed separately. In a continuous batch washer, avoid placing microfiber in the chamber directly behind high-linting products such as towels or blankets.

## Inspect

Check for Defects

Remove Debris

Test Velcro

## Wash Formula Guidelines

### WASHING

- Maximum 200° F with normal agitation, spinning and rinsing
- Proper rinsing is of utmost importance for avoiding hazy floors. Operators should consult their chemical company for proper chemical levels (including detergent).
- Use the proper setting for the load size.
- DO NOT use fabric softener
- DO NOT wash with cotton products
- Use bleach if desired (required if water is not at least 160 degrees)
- Use maximum extraction in the wash cycle to cut back on dry time

### DRYING

- Maximum 130° F
- Tumble dry and promptly remove items from the dryer

Washer size	Detergent Load	18" pads per load
60 lbs.	1.5 oz.	130
86.6 lbs.	2.0 oz.	175
101.4 lbs.	2.5 oz.	220
125 lbs.	3.1 oz.	270
141.4 lbs.	3.5 oz.	305
174.8 lbs.	4.2 oz.	375

Free Shipping is valid only for eligible products on orders over \$100. For orders less than \$100 pre-tax, Free Shipping Eligible products will ship for a flat fee of \$12.95 per order. Shipping offers available only for shipments to the 48 contiguous states; liftgate and expedited shipping fees may apply.
