Panacea® Performance Cushions

Help residents stay comfortably seated with the right cushion for their unique needs

	Flat/Zero Elevation	Wedge	Anti-Thrust
Imagery			
Shape	Same thickness across the entire surface	Thicker in the front than in the back	1" shelf at midline
Use Case	For residents who need added comfort, support, or basic pressure management with minimal positioning.	Provides support, comfort, and pressure reduction for active residents who tend to thrust or slide forward. They are an excellent match with reclining wheelchairs to distribute pressure.	Reduces sacral sitting or hip rotation and prevents forward sliding.
Panacea Cushion Options	Panacea® Performance Zero Elevation Foam Cushion Panacea® Performance Zero Elevation Foam/Gel Cushion	Panacea® Performance Wedge Cushions and Panacea® Performance Wedge Cushions with Gel	Panacea® Performance Anti-Thrust Cushions and Panacea® Performance Anti-Thrust Cushions with Gel
