

Direct Supply® Panacea® Immerse™ Mattresses

Immerse

Benefits

- Three distinct zones create varying levels of pressure redistribution
- Enhanced pressure redistribution zones are engineered specifically for high-risk areas including the head, shoulders, hips, legs and heels
- Open-cell Visco Elastic top-layer foam core removes body heat at a greater rate than conventional foams
- Built-in firm foam perimeters make for easier transfers and help prevent falls

Proven Performance from Direct Supply® Panacea® Immerse Mattress

Specifications	
Layers of Foam	2 (Two-layer foam medical mattress)
Foam Type	Polyurethane with visco top layer. Optional raised perimeters
Firm Perimeters	Yes
Heel Slope	No
Cover Type	4-way stretch
Weight Capacity	350 lbs.
Standard Dimensions	35", 39" or 42" W; 6"H; 76", 80" or 84"L (9"H for plus)
Meets 16 CFR 1633	Yes
Warranty	1 year on cover

These pressure redistribution support surfaces are appropriate for use as part of an overall care plan to prevent and treat decubitus ulcers. Resident-specific assessment could alter your particular usage of these mattresses.

Direct Supply® Panacea® Immerse™ Mattresses

Firm Perimeters

Provide safe transfer support and act as a gentle reminder that the resident is near the mattress edge to help minimize the risk of falls and entrapment

Pressure Zones

Enhanced pressure redistribution zones are engineered specifically for high-risk areas including the head, shoulders, hips, legs, and heels

Cover

Four-way stretch top cover with zipper allows for maximum resident immersion; low-shear, antimicrobial and fluid-resistant

SIZE		CONFIGURATION
