

HIGH PERFORMANCE WIPERS

Cleaning up the Environment One Room at a Time

- PerfectCLEAN® is made from the highest quality micro-denier bi-component fiber available
- Multiple patents including Internationally patented 'Built-in Antimicrobial Product Protection'
- Durable and chlorine stable - designed to meet CDC guidelines for Blood Borne Pathogens
- In-service validation at leading hospitals & hotels supports increased HCAHPS and Guest Satisfaction Scores
- Pharmaceutical clean-room SOP and "validation" demonstrates that PerfectCLEAN eliminates endotoxins from surfaces – Helmke Drum test supports Class-10 and below
- Independent Laboratory Analysis demonstrates that PerfectCLEAN is superior to all cleaning materials tested
- PerfectCLEAN penetrates invisible crevices in surfaces to cut out dirt & grime and "trap & remove" contaminants
- Saves up to 50% in time and labor - PerfectCLEAN does most of the work
- Highest absorption capacity of any product tested and *absorbs it faster*
- True Color coding for distinguishing between bathroom, patient room, guest room, food prep or any other use
- Helps reduce cross-contamination (*the color "ORANGE" is a registered trademark of UMF Corporation*)

All-Purpose Terry Wiper

The PerfectCLEAN *SuperSILK* wiper designed for high definition, high gloss and optical surfaces (*eliminates risk of voiding product warranty on many electronic devices*)

TT280AM: A high density tightly knitted material the SuperSILK wiper has a “wickable” directional surface developed to meet concerns regarding the care & maintenance of diagnostic equipment, plasma screens, highly polished optical surfaces and other surfaces that particulate accumulation and abrasion must be avoided. TT280AM is a patented material offering the exclusive “built in antimicrobial product protection”.
