## LIFESTYLE TREADMILL

Everything you need — and nothing you don't — to give the people you serve a beautifully simple run.

**Our Lifestyle Treadmill with long handrails is ideal for clients with potential balance or stability issues.** Featuring a low step-on height, ergonomic handrails and the choice of several console options, the Lifestyle Treadmill will deliver the durability and performance to meet your client's needs.

4.2 HP AC motor with Dynamic Response Drive System fine-tunes response based on footfall pattern for a smooth, consistent workout starting at 0.5 mph. Conveniently placed speed and incline controls provide tactile feedback with each adjustment.

Ultra-low step on height and ergonomically sculpted handrails makes it easy for virtually anyone to get moving.

An easy-to-open motor cover streamlines service and maintenance by helping technicians get in and out more quickly, minimizing downtime.
