

iN2L for Group Engagement

Content and Technology to Create Connections

"The social interaction is great...It brings value to our activity program."

*– Life Enrichment Director,
Radiant Senior Living*

Whether used as part of Life Enrichment or Memory Care programming, iN2L is ideal for engaging groups across the entire spectrum of care. iN2L's touch screen provides easy access to applications that facilitate social interaction, cognitive stimulation, physical exercise, areas of interest, and reminiscing. For staff-led programming, engaging ideas and activities at your fingertips mean you can spend less time planning and more time focusing on what matters—interacting with residents.

For resident-led interaction in small or large groups, iN2L's easy-to-see-and-touch larger screen systems offer an intuitive interface and easy access to over 4,000 content applications. Residents can easily share their favorite content items with each other via their personalized My Page profiles, providing unique opportunities to socialize and connect with others.

The Benefits of Group Engagement Powered by iN2L

Facilitates Social Connection

Provides Meaningful Engagement

Supports Person-Centered Care

Empowers Staff

The sky is the limit when it comes to iN2L content for groups to enjoy.

Some of our favorites include:

- Getting musical with music trivia, sing-a-longs, and karaoke
- Creating a group masterpiece with one of our interactive art applications
- Encouraging movement with exercise videos
- Connecting to faith with spiritual sermons, hymns, and Bible studies
- Celebrating holidays and doing seasonal activities
- Challenging thinking with familiar interactive games such as Bingo, Family Feud, and The Price Is Right
