

"Reveal" is an innovative line of bedroom furniture designed with memory care residents in mind. With look-through doors and drawers, Reveal empowers residents to effortlessly select their outfits, fostering independence and confidence. Crafted with meticulous attention to detail with dementia in mind, each piece combines functionality with elegance, ensuring a seamless blend of style and practicality. Say goodbye to the frustration of rummaging through drawers – Reveal simplifies the outfit selection process, enhancing the daily routine for memory care residents.

**ThermoShield™** Our laminate furnishings are easy on your budget without compromising your expectations for style, quality, and durability. The ThermoShield™ laminate material features a continuous surface and edge for an easy-to-clean, moisture-resistant, seamless profile edge that minimizes bacteria build-up. Our laminate furnishings come in four unique styles, each available in six colors and eight hardware choices.

Cleanability, durability, and functionality are all hallmarks of Hekman Contract's laminate furniture. Carefully curated finishes provide the warmth and appeal of wood while delivering outstanding resistance to continuous cleaning with harsh abrasive chemicals. Laminate is resistant to hot and cold liquids and will stand up bumps from wheelchairs and walkers. It won't fade nor easily scratch, chip, or dent. Rounded edges protect residents and staff, and our special ThermoShield construction method prevents moisture penetration and microbial buildup by eliminating seams in surfaces.

Nasty liquids will harm your phone, computers, and keyboards...but they won't harm or stain your ThermoShield™ surface because of its resistance to liquids such as:

Hand Sanitizer

Coffee

Isopropyl Alcohol

Ammonia

Mustard

Vinegar

Clorox Bleach

#### Features & Benefits

Recessed and Fitted Ventilated Back Panels

Smooth, Vinyl-Wrapped Drawer Interiors

Miter and Dowel Drawer Box Construction

Steel Ball Bearing Drawer Slides

Adjustable Floor Leveling Glides

ThermoShield Wrapping Provides a Seamless Profile Edge, Minimizes Bacteria Build Up, and Is Easy to Clean

Resistant to Continuous Cleaning with Abrasive Chemicals
