

Direct Supply® Panacea® Original & Support Mattresses

Benefits

- Die-cut top layer provides comfortable pressure redistribution, creating individual load bearing cells to cradle residents and improve air flow
- High-resiliency, super-soft foam heel area protects heels, while optional heel slope improves pressure redistribution by redirecting pressure to the calves
- Built-in firm side perimeters and optional raised perimeters help reduce the risk of falls and make transfers easier
- Peak-and-valley middle layers provide suspension-like support while improving immersion on the Panacea Support mattresses
- Full-length base provides a firm, supportive foundation on the Panacea Original Mattress
- Four-way stretch cover is low shear, antimicrobial, fluid resistant and breathable, and allows for maximum resident immersion and envelopment; heavy-duty, fluid-proof
- Concealed zipper to prevent skin tears and protect foam from liquids

Specifications

- Firmness: Medium or Soft
- Foam Type: Polyurethane
- Firm Perimeters: Yes
- Raised Perimeters: Yes, optional
- Heel Slope: Yes, Optional
- Cover Type: Classic 4-way stretch
- Weight Capacity: 500 lbs.
- Standard Dimensions: 35", 39", or 42"W; 6"H; 76", 80", or 84"L
- Meets 16 CFR 1633: Yes
- Warranty: 7-year, non-prorated limited warranty

These pressure redistribution support surfaces are appropriate for use as part of an overall care plan to prevent and treat decubitus ulcers. Resident-specific assessment could alter your particular usage of these mattresses.

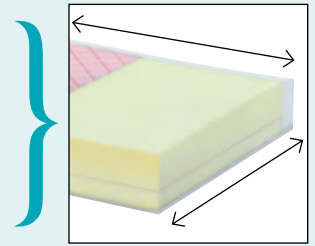

Direct Supply® Panacea® Original & Support Mattresses

1 SELECT FIRMNESS

Choose from our soft Support Mattress or medium Original Mattress, both customizable to help meet the unique comfort needs of your resident population – enhancing comfort for a better quality of sleep.

2 SELECT SIZE

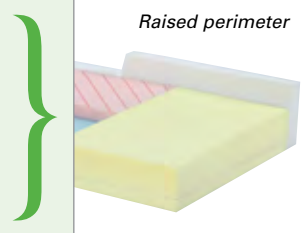

Choose from a variety of mattress sizes to accommodate all of your residents. Wider mattresses also give residents more space to sleep and reposition, helping to reduce falls to keep residents safer and more comfortable.

3 SELECT CONFIGURATION

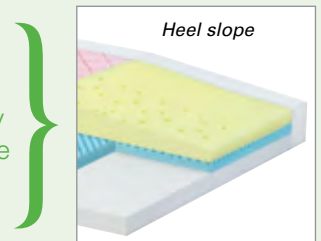

Plus Raised Perimeters

3" raised one-piece side perimeters reduce the risk of resident falls and limit the need for bedrails. Egress cutouts make transfers easier on residents and caregivers.

Heel Slope

Super-soft foam redistributes pressure away from vulnerable heels to the calf and increases resident comfort.
