

Panacea® 1000-FLEX Adjustable-Height Low Bed

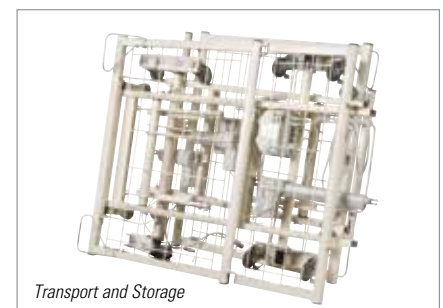

Roll in Low

Benefits

- Split frame design ships assembled for ease of installation and disassembles into two pieces to allow for easier transport and storage in the building.
- Available in both roll-in-low-only and mobile-at-any-height configurations
- Auto Contour moves the head and knee sections at the same time to help maintain proper resident position during position changes to help minimize shearing
- Optional width and length extension kits allow you to re-size an existing bed from 35" to 39" or 42"W and from 80" to 84"L, helping you meet the needs of different residents easily and affordably
- End panel brackets can be installed tool free and feature quick-release technology
- Optional staff control is integrated in the foot panel that allows for select functions to be locked out to assist with clinical needs and aid in repositioning
- Meets IEC 60601-2-52 standards
