Direct Supply® Attendant® PIR Alarms

Monitor specific areas for resident movement with wireless infrared detection

Benefits

- Alarm is activated by passive infrared detection – no bed pad needed. This results in increased resident comfort, lower costs and less false alarms
- Powered by 9V batteries. Intuitive design makes batteries easy to replace
- Swivel attachment allows caregiver to position motion sensor beam as needed
- Optional attachment devices include a choice of magnetic or flexible brackets. Neither option requires tools
- Features a single alarm tone that sounds immediately when motion is detected

#80103 Attendant Flexible Bracket
