

Panacea® 3500

Adjustable-Height Low Beds

Resident Comfort

- Auto Contour moves the head and knee sections at the same time to help maintain proper resident position during position changes to help minimize shearing
- Integrated width and length extensions feature allow you to re-size an existing bed from 35" to 39" or 42"W and from 80" to 84"L without the use of tools, helping you meet the needs of different residents easily
- Pendant features comfort chair button to help keep the resident's hips and shoulders aligned when in the seated position while also providing additional clinical benefits

Reliable

- Mattress keepers help prevent mattress from shifting while the bed locator bar protects walls from damage
- Quick and easy to clean rib deck
- Synchronized motors keep the bed level throughout height travel
- Available in both roll-in-low-only and mobile-at-any-height configurations
- Optional color-coded two-pedal locking system is centrally positioned at the foot end of the bed on mobile-at-any-height configurations
- Meets IEC 60601-2-52

Easy to Use

- Backlit hand pendant makes bed adjustments during the night easy for residents and staff
- Assists and end panel brackets can be installed tool-free and feature quick-release technology
- Pre-set safety pause minimizes risk for crushing overbed tables and other equipment that may be under the bed; this setting also provides a pre-set transfer height to aid in egress and ingress
- Optional staff control is integrated in the foot panel that allows for select functions to be locked out to assist with clinical needs and aid in repositioning
- Optional staff control features additional trendelenburg and reverse trendelenburg to aid with repositioning and other clinical needs

Panacea® 3500

Adjustable-Height Low Beds

Pendant

Easy-to-use 10-button hand pendant puts a variety of positioning options within your residents' reach, including Comfort Chair Positioning

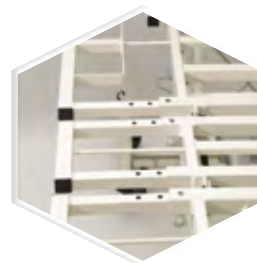

Staff Control

Integrated staff control is conveniently located at the foot panel and offers access to Trendelenburg and Reverse Trendelenburg positioning, in addition to lock-out capabilities

Safety Lock

Bed is secure or mobile at any height with an optional easy-to-use, one-step safety lock

Integrated Width & Length Extension

Integrated width and length extensions transform the frame from 35" to 39" or 42"W and from 80" to 84"L without the use of tools or additional parts

Pivoting Assist & Soft Touch Assist

Assist Devices make repositioning, rolling over, egress and ingress hassle-free

End Panel Finishes

#C8092
