Straws

#29Y89 Straws for Insulated Mugs, Case of 144

MONITOR FLUID INTAKE WITH COLORED MUGS

Use one colored mug for the morning and a different color for the afternoon. This will help your staff know how much water has been consumed during each period of time and ensure your residents always have fresh water in their mug throughout the day.

WANT TO SAMPLE A MUG? JUST ASK!

Contact your account manager for details.
