"We are thrilled that Direct Supply recognizes how important it is for communities to have dinnerware options like the Pasadena to accommodate the unique needs of older adults."

■ The RD Council

The Direct Supply® Pasadena Collection

Why was the Pasadena Collection developed?

It's no secret that as we age, our senses and dexterity become limited. These diminished abilities have powerful impact on how older adults are able to hold, eat and most importantly, enjoy their food. That makes key elements such as weight, capacity and design of dinnerware pieces so important. The right dinnerware can create a ripple effect of improved nutrition and overall mealtime satisfaction.

Developed to align with the RD Council specifications, the Pasadena Collection takes into account these crucial functional aspects of use for older adults unlike any other tabletop collection.

What is the RD Council?

Comprised exclusively of senior dietitians who are actively working with Long Term Care providers, the RD Council represents over 2,400 communities nationwide. Through their extensive research, numerous programs and partnership with the American Dietetic Association, the Council's mission is to improve the quality of food and nutrition among our older adults.
