

# Patient Floor Scale

## Model **SR411i** and **SR416i**

The SR411i and SR416i Patient Floor Scales are sleek, innovative scales that provide years of reliable service and accurate weight data.

Designed for virtually effortless patient standing comfort, the low-profile and ultra-wide scales are ideal for surgical centers, telehealth applications and other healthcare settings where a basic, reliable weighing solution is needed. Both scales are designed from a large, easy to stand on platform that supports patients up to 880 Lbs. The SR411i features a wall mounted display while the SR416i has a built-in display. With their always-on AC power supply and high-visibility displays, both models are ready whenever you need to weigh a patient.

Platform size: 23" x 15"

**SR411i**

### ANTIMICROBIAL

SR Scales contain antimicrobial technology for powerful, continuous product protection against bacteria.

### SOLID CAST ALUMINUM CONSTRUCTION

Durable, stable, and easy to clean.

### LOW PROFILE DESIGN

Easy and safe access to weighing surface.

### ULTRA-WIDE BASE

Unique beveled edges slope upwards to a large, comfortable stand-on base that easily accommodates larger patients. The entire top of the scale is part of the weighing surface

### MEMORY RECALL

Automatically stores the last stable weight.

### WALL MOUNTED DISPLAY - SR411

Ensures height flexibility and proper placement of easy-to-use, large digital readout.

### BUILT-IN DISPLAY - SR416

Scale is highly portable with easy to use built-in, large digital readout.

### EHR/EMR READY

Serial data output can be used to communicate with electronic health records through send or get commands.

### AC POWERED

Never worry about replacing batteries. The AC adaptor ensures constant power for always-ready usage.

### OPTIONAL EQUIPMENT

Wall Mounted Height Rod  
Bluetooth enabled data output  
(factory option)
