

#36RPD

#36RPH

#36RPC

#36RPG

Benefits and Features

- UV-C disinfection light can safely be used in occupied spaces and has been shown to not produce the skin damaging effects associated with conventional germicidal UV exposure
- Deactivates common pathogens including SARS-CoV-2, MRSA, e-coli, salmonella, influenza-A, c-diff, and more
- 4 "set it and forget it" lighting options for ceiling, wall or vertical surfaces
- Wall mount unit features flexible mounting options for vertical surfaces
- Care222® Patented Safety Filter technology provides narrowband 222nm emission
- Mercury free
- Instantaneous on/off at full output power, no lamp degradation over time
- Includes access to mobile app which allows for bulb intensity to be customized for each installation
- Ushio Care222® bulbs provide 10,000 hour bulb life
- UL1598 compliant
- Operates on standard 110V power systems
