## Assembly Instructions

Material checklist (quantity for specified table size):

	4'x7'	5'x7'
Carriage bolts 1/4" x 4"	12	14
Nuts 1/4"	12	14
Flat washers 1/4"	12	14
Lock washers 1/4"	12	14
Wooden legs	4	5

**Step 1:** Lay table vinyl side down (to protect upholstery, be sure the area is clear of sharp objects) and remove packet of bolts, nuts and washers from underside of the table. Each leg is numbered and should be placed into the matching numbered corner of the mat table. Carefully align legs with pre-drilled holes to begin assembly. Note that the 4'x7' table has 4 legs and the 5'x7' table has 5 legs.

**Step 2:** Slide carriage bolts through the skirt of the table and then through the leg. On each carriage bolt place a flat washer, next a lock washer, then a nut. Note: placing washers and nuts in this order is important to properly secure the table legs.

**Step 3:** Using a 7/16" wrench or socket, tighten the nuts on the legs until the head of the carriage bolt is seated firmly against the wood. Tapping the head of the carriage bolt will aid in seating, but is not necessary.

## Upholstery Cleaning Instructions

For light soiling, use a solution of 10% household liquid dish soap and warm water applied with a soft, damp cloth. A soft bristle brush may also be used if necessary. For very difficult stains, dampen a soft white cloth with a solution of household bleach: 10% bleach, 90% water. Rub gently and rinse with a water-dampened cloth to remove bleach solution. If necessary, allow a 1:10 diluted bleach solution to puddle on the affected area with a soaked cloth for 30 minutes. Rinse with a damp cloth to remove any remaining bleach solution.

**NOTE:** Try this method on an inconspicuous spot before using it on the stain.
