### Stacking:

The Kensington Stationary Rocker is nonstacking.

### Cushion Details:

Seat: 2¼" front tapering to 1", 1850FR foam

Back: 1½", 1030FR foam, 2¼" lumbar support

### Construction:

Mortise-and-tenon joints. Glued with high-solids wood glue and reinforced with 18-gauge nails, corner blocks and low-root woodscrews. Seat decks have a woven elastic nylon mesh support. Heavy-duty platform springs are used for the rocking mechanism.

### Finish Details:

A wide range of standard finishes is available, and custom finishes are available upon request for an upcharge. All wood dining chairs are finished using a 9-step process that enables the chair to perform very well in a commercial environment.

\* Fabric requirement for one chair includes the seat and backrest  
 \* COM (Customer's Own Material) is not recommended because of the fees associated with international customs.  
 \* The estimated fabric requirement is based on 54"W (137 cm) material. The actual amount required may vary depending on pattern, pattern matching, material width or use of multiple fabrics  
 \* The fabric on the backrest is visible from the rear view of the chair  
 \* Different fabrics on seat and backrest is possible

### Wood Details:

Species: 100% solid European beech hardwood.

### Mobility Options:

The Kensington Stationary Rocker is not available with casters or inline wheels.

### Floor Glides:

All chairs ship standard with white nylon floor glides. Optional floor glides include small and large metal, large white nylon, and felt.

### Regulations:

All chairs are CA117-2013 and TSCA Title VI certified. CA133 option is available.

### Warranty Information:

10-year limited warranty on the chair frame.  
 1-year limited warranty on the seat and backrest foam.  
 Fabric manufacturer's warranty on fabric.
